

There is a .DOCX template for you to use that has been posted along with this document. But if you can't use that template, then feel free to make your own document. To the extent possible, please use 13-point Times New Roman, 1.5 line spacing, 1.75-inch margins all around, and in the header of each page, please put your first and last name in all caps and the page number, as shown above.
