Selected Explanation

Question 4: The answer is B because I and II are not correct and III is correct. I is not correct because Jolene is barred by workers compensation from recovering from her employer in tort for the accident suffered in the course of her employment. II is not correct because there is not a design defect that has caused Jolene’s injury. III is correct because the problem with the plastic-injection molding that resulted in a faulty part constituted a manufacturing defect, and this manufacturing defect caused the injury.
